

The Restoration Continues!

Hello everyone, and greetings from Boulder Hot Springs. I am excited to tell you about some of our plans to continue the restoration of this beautiful old lady with the red hat (our building with its lovely roof).

In the spring of 2007, we were able to repair and restencil the ceilings of the west wing lobby and old dining room and put up the original light fixtures from the 1910's. This year we plan to continue working on these areas by repairing and restenciling the walls. In addition, we hope to repair some bathrooms off the west wing lobby and eventually restore the old bar room.

We would like to invite you to participate in these projects. We now have a donation box at the front desk if you would like to contribute to the ongoing restoration. We can also use volunteer labor once we get started with the tear out and construction of the bathrooms and the restoration of the bar room. Those with carpentry and construction experience are especially needed. Please let us know if you would like to be a part of this project.

In August, September, October and November we have a lot of fun and delightful group events here at the Boulder Hot Springs. We hope to see you here, and we hope you enjoy the rest of the summer.

Take care and best wishes,
Kerri Kumasaka

Living in Process® work was developed by Anne Wilson Schaefer. People who are in the Training with her are now facilitating Intensives here and throughout the country.
